

School Doctor Service

Redefining the gold-standard

About us.

Redefining the gold-standard in school medical provision by redefining the role of a school doctor.

At Meliora Medical Group, our highest priority is the well-being of pupils. Our specialist **School Doctor** service looks to go above and beyond a school's existing provision, providing doctors who are experts in the field of school medicine to run as many clinics as needed per week. Supported by our wider team who have experience of working with over 100 schools in the UK.

We provide a service bespoke to each school, pairing their needs with our medical and operational expertise to support the medical centre and SMT, ultimately providing the best possible care for pupils.

Our doctors fully immerse themselves into school life, getting to know the unique patterns of each school and their pupils.

In addition to the doctor's clinical work they and our wider team are experts in medical centre governance, supporting nurses and their professional development, advising on health & well-being policies, safeguarding and much more.

Working together to improve every facet of health and well-being at the school. Ensuring your pupils get the gold-standard care they deserve.

Our School Doctor Service

Medical Care

Gold-standard medical care for your pupils, from our expert school doctors.

We provide specialist school doctors in a more cost-effective way than traditional models. We have a track record of consistently providing a greater level of service for comparable costs to school's current provision.

NHS GP Partnership

By partnering with our chosen NHS GP practise partner, we ensure pupil's continuity of care and access to NHS care outside of school clinic hours and term times.

Pairing NHS provision with our dedication to going above and beyond ensures your pupils receive the very best care.

Health & Wellbeing

Going above and beyond to contribute medical and health & wellbeing expertise to the entire school community.

Our doctors take an active role in PHSEE & RSE and will help to improve and delivery your curriculum.

Medical Leadership

Our doctors provide more than clinical care.

They immerse themselves in school life, getting to know and becoming a part of the community. They support the school with governance, safeguarding, policies and more. Working with the medical centre and SMT to improve every facet of health & well-being at the school through a collaborative and constructive approach.

What challenges does our service solve?

In addition to ensuring pupils are provided with gold-standard care, we know that medical provision within schools comes with other challenges.

The Challenges

Risk

Managing and mitigating risk can be difficult with multiple types of risk present.

From safeguarding, to clinical risk, medical complexity and more.

Governance

Excellent governance is hugely important and vital to the running of a high quality medical centre.

But it can be time-consuming and requires significant expertise, making it a significant daily burden.

Communication

Efficient communication is vital to an efficient medical centre.

Both internally with key stakeholders like safeguarding, SMT, pastoral leads and medical centre. As well as externally with parents and relevant professionals.

Support

A collaborative approach to health and well-being requires high levels of support.

Providing support to all internal and external stakeholders involved in health & well-being can be a time-consuming and difficult process.

Our Solutions

Shared Responsibility

Our school doctors can reduce and hold risk as well as share responsibility with appropriate members of the School team.

Expertise

Our School Doctors take a leading role in significant event analysis, staff training and reviewing policies and procedures, along with the support of our wider MMG team.

Excellent Communication

Our School Doctors understand the importance of timely and effective communication internally and externally. They often liaise directly with parents.

Expert School Doctors

Our School Doctors are an expert resource who take an active role in helping the SMT, pastoral teams and healthcare teams.

What are the key benefits?

For Pupils & Parents:

- More appointments available every week with the same doctor, developing a relationship with each pupil.
- A doctor who is an expert in school medicine
- Direct communication and engagement with the parent body
- Support from the MMG team of expert doctors with a range of special interests and experience

For Medical Centres:

- Clinical Support from an experienced School Doctor with whom a relationship is developed
- Operational Support with policies & procedures, clinical governance and more.
- Support and professional development of nursing staff
- Sharing of responsibility for clinical risk, safeguarding and more.
- Advocacy of the medical centre within the school

For the School:

- Sharing of responsibility for clinical risk, safeguarding and more.
- Single point of reference to an expert doctor who understands schools and latest medical trends
- Access to MMG dedicated support team - administrative and clinical
- Demonstrates school's continuing commitment to improving pupil welfare
- Peace of mind that pupils are receiving gold-standard care

What do our partners say about us?

“The School Doctor service is brilliant to work with. Experienced, reliable and skilled – we feel incredibly well supported. They work seamlessly with everyone in the school community to provide outstanding care to our pupils.

Lead Nurse, Harrow School

School Doctor Service

“Meliora Medical Group do a fantastic job managing all of our sports medicine services at Harrow. Couldn't be happier.”

Head of Rugby, Harrow School

Sports Doctor Service

“Our dedicated School Doctor has a comprehensive understanding of our school model and knows the pupils well. As a fully integrated member of the pastoral team, her input into individual cases and wider pastoral decision making is invaluable. An exceptional service.

Medical Team, St Edward's

School Doctor Service

“Partnering with Meliora Medical Group enhances the safety and welfare of our pupils. I commend them to you without hesitation.
